DETAILED ACTION

This office action follows a response filed on October 1, 2003. Applicants have canceled all previous claims (1-22). New claims 23-44 have been added. Independent claims 23, 24, 25, 42, 43, and 44 contain subject matter deemed allowable in the previous office action.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claim 23 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

A broad range or limitation together with a narrow range or limitation that falls within the broad range or limitation (in the same claim) is considered indefinite, since the resulting claim does not clearly set forth the metes and bounds of the patent protection desired.

Note the explanation given by the Board of Patent Appeals and Interferences in *Ex parte Wu*, 10 USPQ2d 2031, 2033 (Bd. Pat. App. & Inter. 1989), as to where broad language is followed by "such as" and then narrow language. The Board stated that this can render a claim indefinite by raising a question or doubt as to whether the feature introduced by such language is (a) merely exemplary of the remainder of the claim, and therefore not required, or (b) a required feature of the claims. Note also, for example, the decisions of *Ex parte Steigewald*, 131 USPQ 74 (Bd. App. 1961); *Ex parte Hall*, 83 USPQ 38 (Bd. App. 1948); and *Ex parte Hasche*, 86 USPQ 481 (Bd. App. 1949).

The claim is drawn to a copolymer whose melt index (MI2) lies in the range of 0.0001 to 1000 g/10 min. The vinyl group content and the vinylidene group content in the copolymer are related to MI2 by the following equations shown below.

$$\begin{aligned}\text{vinyl} &\leq 0.018038 + 0.003259 \log(\text{MI2}) \\ \text{vinylidene} &\leq 0.018038 + 0.003259 \log(\text{MI2})\end{aligned}$$

Present claim 23 was amended to include the limitation of previous claim 2. Here, the vinyl group content and the vinylidene group content in the copolymer are related to MI2 by the equations shown below.

$$\begin{aligned}\text{vinyl} &\leq 0.004509 + 0.000815 \log(\text{MI2}) \\ \text{vinylidene} &\leq 0.013528 + 0.002445 \log(\text{MI2})\end{aligned}$$

These equations define a narrower range of possible values for vinyl and vinylidene group content. Therefore, claim 23 should have been amended to recite the latter set of equations only with deletion of the former set of equations.

3. Claims 39-41 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. There is insufficient antecedent basis for “the thermoplastic” in the claim.

Claim Objections

4. Claim 32 is objected to because of the following informalities: The claim recites “ η ” in an equation without defining the term. As such, the meaning of the claim is not clear. Appropriate correction is required.

Allowable Subject Matter

5. Claims 24, 25, and 42-44 are allowed.

6. Claims 26-38 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

7. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

The prior art made of record but not relied upon is considered pertinent to the Applicant's disclosure. The following references relate to ethylene copolymers with defined vinyl group content and vinylidene group content.
